

Darlene Yurchuk

Joined 2010

After many years of living in various areas of Manitoba, Darlene and her family settled in the Nesbitt area. Country living was something she has always enjoyed. Creating a beautifully landscaped yard, the perfect place for weddings, anniversaries and other wonderful social events, is a high-light of her life. She treasures every chance to have her four Grandsons out to the farm to enjoy the country side of life.

Life always has a way of bringing a person down and Darlene has had her share, and then some, of the bad side of life. Her husband passed away of cancer shortly after retiring. Darlene then faced knee surgery, heart surgery, and then breast cancer. None of this has been able to stop her from enjoyng life.

Volunteering to help other people in need, with 'Look Good, Feel Better', sewing custom mastectomy clothes, and any other projects that come along, help to give Darlene a purpose in life. Her enjoyment of life is really evident in the social activities she is involved with. Talking about Tai Chi, Red Hat, Crown Jewels and her lastest adventure, Waves of Hope always brings a smile to her face and a spring to her step.
