

# *New 2007 Waves of Hope*

## ***Rosemarie Blair***

*On December 27<sup>th</sup>, 2005, Rosemarie's life changed forever. That was the day that she received the call from her doctor stating that she had breast cancer. What a shock. A mastectomy on the 30<sup>th</sup> Jan, 06 started a scary year of more surgery, chemo, radiation and endless tests.*

*With the support of her family; husband Steve, daughter Jennifer, son Kevin and precious granddaughter, Hailey, she was able to face this journey head on. Together they learned how precious life is and treasure their time spent together.*

*During her journey, Mary Gobeil was there with endless support and encouragement as she battled breast cancer as well. Always, Mary would tell Rosemarie to make sure she joined the Waves of Hope.*

*Rosemarie joined the Waves of Hope and her life has changed again. She can think of no other group who are more supportive and caring. She has been blessed with a wonderful family, great friends and a group of ladies who always say "yes, you can do it". Life is precious, try to enjoy every moment.*
