## ***Wanda Lorenz***

*Wanda and her husband arrived in Canada in 1957 from Germany. In early 1996, Wanda received a letter from Canada Health suggesting she have her first mammogram. She was diagnosed with breast cancer and had a mastectomy that year. Her husband was a real support to her as they were alone without close family, "just the two of us in Canada". They relied on each other.*

*Wanda's hobbies include: knitting, crocheting, gardening, cooking and baking. Of course, she spends a lot of time enjoying her dog.*

*Wanda feels that it is very important that one makes sure that you have your mammogram regularly.*

*Susan was born in Souris, Manitoba. She graduated from St. Boniface Hospital in the LPN program in 1969 and has been nursing ever since. She was married in 1972 and has one son, Brent and a daughter, Dawn.*

*Susan was 35 years old when she was diagnosed with breast cancer and says, "Yes, I was very frightened with this diagnosis, because our children were very young and I wanted to see them grow up." She received tremendous support from her Mom, Dad, three sisters and Aunt and two very close friends. This continues even today.*
